31. MEGAN'S LAW DATABASE DISCLOSURE

Notice: Pursuant to Section 290.46 of the Penal Code, information about specified registered sex offenders is made available to the public via an Internet Web site maintained by the Department of Justice at www.meganslaw.ca.gov. Depending on an offender's criminal history, this information will include either the address at which the offender resides or the community of residence and ZIP Code in which he or she resides. (Neither Landlord nor Brokers, if any, are required to check this website. If Tenant wants further information, Tenant should obtain information directly from this website.)

32. PROPOSITION 65 WARNING

The State of California has determined certain chemicals commonly found in and around residences are known to cause cancer and birth defects or other reproductive harm. These can be found in California health & safety code section 25249.6. Among such chemicals are second hand cigarette smoke, alcohol, lead paint, and asbestos. Tenant is aware of such chemicals and the dangers they pose.

33. POSSESSION

If delivery of possession of the Premises by Landlord at the commencement of the Term is delayed, Landlord will not be liable for any damage caused by the delay, nor will this Agreement be void or voidable, but Tenant will not be liable for any Rent until possession is delivered. If Landlord is unable to deliver possession of the Premises on the Commencement Date, such date will be extended to the date on which possession is made available to Tenant. If Landlord is unable to deliver possession within ten (10) calendar days after the agreed Commencement Date, Tenant may terminate this Agreement by giving written notice to Landlord, and will be refunded all Rent, the Security Deposit, and the Pet Deposit, if any, to the extent the same have been paid to Landlord. Possession is deemed terminated when Tenant has returned all keys to the Premises to Landlord and has surrendered the Premises free of all occupants and personal property pursuant to Section 34, below.

34. TENANT'S OBLIGATIONS UPON VACATING PREMISES

- 34.1. Upon termination of this Agreement, Tenant must: (i) give Landlord all copies of all the keys or opening devices to the Premises, including any common areas; (ii) vacate and surrender the Premises to Landlord, empty of all persons; and personal property belonging to Tenant (iii) vacate any/all parking and/or storage space; (iv) clean and deliver the Premises, as specified below, to Landlord in the same condition as received by Tenant and described in this Agreement; (v) remove all debris; and (vi) give written notice to Landlord of Tenant's forwarding address.
- 34.2. All alterations/improvements made by or caused to be made by Tenant, with or without Landlord's consent, become the property of Landlord upon termination of this Agreement. Landlord may charge Tenant for restoration of the Premises to the condition it was in prior to any alterations or improvements.
- 34.3. **Right to Pre-Move-Out Inspection and Repairs:** (i) After giving or receiving notice of termination of a tenancy, or before the end of the Agreement, Tenant has the right to request that an inspection of the Premises take place prior to termination of the Agreement; (ii) If Tenant requests such an inspection, Tenant will be given an opportunity to remedy identified deficiencies prior to termination, consistent with the terms of this Agreement; (iii) Any repairs or alterations made to the Premises as a result of this inspection (collectively, "Repairs") will be made at Tenant's expense and only after obtaining the prior written approval of Landlord; (iv) Repairs may be performed by Tenant or

through others, who have adequate insurance and licenses and are approved by Landlord; (v) The work must comply with applicable law, including governmental permit, inspection and approval requirements; (vi) Repairs must be performed in a good, skillful manner with materials of quality and appearance comparable to existing materials; (vii) Tenant must: (a) obtain receipts for Repairs performed by others; (b) prepare a written statement indicating the Repairs performed by Tenant and the date of such Repairs; and (c) provide copies of receipts and statements to Landlord prior to termination. Tenant's Right to Pre-Move-Out Inspection, as specified above, does not apply when the tenancy is terminated pursuant to California Civil Code Procedure § 1161(2), (3) or (4).

35. DEFAULT

Tenant will be in default under this Agreement if Tenant: (i) fails to pay Rent when due, or (ii) fails to perform any other obligation or duty of Tenant under this Agreement, which failure to pay or perform continues for three (3) days after the delivery of written notice to Tenant of such default in the manner required by law (an "Event of Default"). Any notice required to be given for Tenant to be in default hereunder will not be deemed to be in addition to any statutorily required notice as long as the notice given hereunder otherwise complies with the terms of the applicable statute.

36. REMEDIES

After the occurrence of an event of Default, in addition to any and all other remedies available to Landlord at law or in equity, Landlord will have the right to the following:

36.1. The immediate option to terminate this Agreement and all rights of Tenant hereunder by giving Tenant written notice of such intention to terminate, in which event Landlord may recover from Tenant all of the following: (i) unpaid Rent at the time of termination; plus (ii) unpaid Rent for the balance of the Agreement Term; plus (iii) any other amount necessary to compensate Landlord for all the detriment proximately caused by Tenant's failure to perform his or her obligations under this Agreement or which in the ordinary course of things would be likely to result therefrom, including, but not limited to: brokers' commissions; the costs of refurbishment, alterations, renovation and repair of the Premises reasonably incurred for the sole purpose of re-letting the Premises; and removal (including the repair of any damage caused by such removal) and storage (or disposal) of Tenant's personal property, equipment, fixtures, alterations and any other items which Tenant is required under this Agreement to remove but does not remove; plus (iv) at Landlord's election, such other amounts in addition to or in lieu of the foregoing as may be permitted from time to time by applicable California law; plus (v) the amount of any concessions provided to Tenant by Landlord in connection with this Agreement at the time the parties entered into this Agreement and/or at the time of Tenant moving into the Premises.

36.2. In addition to the remedies specified above in this Section, if an Event of Default occurs, Landlord has the remedy described in California Civil Code Section 1951.4 (Landlord may continue rent in effect after Tenant's breach and abandonment and recover Rent as it becomes due, if Tenant has the right to sublet or assign, subject only to reasonable limitations) and may continue the Agreement in effect after Tenant's default.

37. DAMAGE TO PREMISES

If, by no fault of Tenant, the Premises are totally or partially damaged or destroyed by fire, earthquake, accident or other casualty that render the Premises totally or partially uninhabitable, either Landlord or Tenant may terminate this Agreement by giving the other written notice. Rent will be abated as of the date the Premises become totally or partially uninhabitable. The abated amount will be the current monthly Rent prorated on a 30-day period. If this Agreement is not terminated, Landlord will promptly repair the damage, and Rent will be reduced based on the extent to which the damage interferes with Tenant's reasonable use of the Premises. If damage occurs as a result of an act of Tenant or Tenant's guests, only Landlord will have the right of termination, and no reduction or abatement of Rent will be made.

38. INSURANCE

Tenant's and Tenant's guest's personal property and vehicles are not insured by Landlord, the property manager, if any, or, if applicable, HOA, against loss or damage due to fire, theft, vandalism, rain, water, criminal or negligent acts of others, or any other cause. **Tenant is advised to carry Tenant's own insurance (so-called "renter's insurance") to protect Tenant from any such loss or damage.** Tenant must comply with any requirement imposed on Tenant by Landlord's insurer to avoid: (i) an increase in Landlord's insurance premium (or Tenant must pay for the increase in premium); or (ii) loss of insurance.

Tenant's Initial(s) *gyl*

39. WATERBEDS; AQUARIUMS; WASHING MACHINE

Any waterbeds, or liquid-filled furniture as provided under California Civil Code 1940.5, are not permitted. Aquariums larger than 10 gallons are not permitted. Tenant may not have washing machine in unit if not properly plump for such.

40. WAIVER

40.1. No failure of Landlord to enforce any term of this Agreement will be deemed a waiver, nor will any acceptance of a partial payment of Rent be deemed a waiver of Landlord's right to the full amount of Rent owed. The waiver of any breach shall not be construed as a continuing waiver of the same or any subsequent breach.

40.2. Waiver by Landlord of a breach of any covenant of this Agreement will not be construed to be a continuing waiver of any subsequent breach. Landlord's receipt of rent with knowledge of Tenant's violation of a covenant does not waive his/her rights to enforce any covenant of this Agreement. The invalidity or partial invalidity of any provision of the Agreement shall not render the remainder of the Agreement invalid or unenforceable.

41. TENANT ESTOPPEL CERTIFICATE

41.1. Tenant must execute and return a Tenant estoppel certificate delivered to Tenant by Landlord or Landlord's agent within **three (3) days** after its receipt. Failure to comply with this requirement will be deemed an Event of Default and Tenant's acknowledgment that the Tenant estoppel certificate is true and correct, and may be relied upon by a lender or purchaser.

42. REPRESENTATIONS

42.1. Tenant Representation; Obligations Regarding Occupants; Credit: Tenant warrants that all statements in Tenant's rental application are accurate. Landlord requires all occupants 18 years of age or older and all emancipated minors to complete a tenant rental application. Tenant acknowledges this requirement and agrees to notify Landlord when any occupant of the Premises reaches the age of 18 or becomes an emancipated minor. Tenant authorizes Landlord and Broker(s) to obtain Tenant's credit report periodically during the tenancy in connection with the modification or enforcement of this Agreement. Landlord may cancel this Agreement: (i) before occupancy begins; upon disapproval of the credit report(s), or upon discovering that information in Tenant's application is false; (ii) After commencement date, upon disapproval of an updated credit report or upon discovering that information in Tenant's application is no longer true. A negative credit report reflecting on Tenant's record may be submitted to a credit reporting agency if Tenant fails to fulfill the terms of payment and other obligations under this Agreement.

42.2. Landlord Representations: Landlord warrants that, unless otherwise specified in writing, Landlord is unaware of (i) any recorded Notices of Default affecting the Premise; (ii) any delinquent amount due under any loan secured by the Premises; and (iii) any bankruptcy proceeding affecting the Premises.

43. MEDIATION

43.1. Consistent with this Section, Landlord and Tenant agree to mediate any dispute or claim arising between them out of this Agreement, or any resulting transaction, before resorting to court action. Mediation fees, if any, will be divided equally among the parties involved. If, for any

dispute or claim to which this paragraph applies, any party commences an action without first attempting to resolve the matter through mediation or refuses to mediate after a request has been made, then that party will not be entitled to recover attorney fees, even if they would otherwise be available to that party in any such action.

43.2. The following matters are excluded from mediation: (i) an unlawful detainer action; (ii) the filing or enforcement of a mechanic's lien; and (iii) any matter within the jurisdiction of a probate, small claims or bankruptcy court. The filing of a court action to enable the recording of a notice of pending action, for order of attachment, receivership, injunction, or other provisional remedies, will not constitute a waiver of the mediation provision. Each of the parties hereby irrevocably waives any right to trial by jury.

43.3. Landlord and Tenant agree to mediate disputes or claims involving Listing Agent, Leasing Agent, or property manager ("Broker"), provided Broker shall have agreed to such mediation prior to, or within a reasonable time after, the dispute or claim is presented to such Broker. Any election by Broker to participate in mediation shall not result in Broker being deemed a party to this Agreement.

44. TIME OF ESSENCE; ENTIRE CONTRACT; CHANGES

Time is of the essence. All understandings between the Parties are incorporated in this Agreement. Its terms are intended by the Parties as a final, complete and exclusive expression of their agreement with respect to its subject matter, and may not be contradicted by evidence of any prior agreement or contemporaneous oral agreement. If any provision of this Agreement is held to be ineffective or invalid, the remaining provisions will nevertheless be given full force and effect. Neither this Agreement nor any provision in it may be extended, amended, modified, altered or changed except in writing. This Agreement is subject to California law and will incorporate all changes required by amendment or successors to such law. This Agreement and any supplement, addendum or modification, including any copy, may be signed in two or more counterparts, all of which will constitute one and the same agreement.

45. MILITARY SERVICE TERMINATION RIGHT

In the event that Tenant, is or hereafter becomes, a member of the United States Armed Forces on extended active duty and receives permanent change of station orders to depart from the area where the Premises are located (which for purposes of this Section means an area in excess of fifty (50) miles from the Premises), or is ordered into military housing, then in any of these events, Tenant may terminate this Agreement upon giving not less than thirty (30) days written notice to Landlord. Tenant must also provide to Landlord a copy of the official orders or a letter signed by Tenant's commanding officer, reflecting the change, which entitles Tenant to the right to terminate this Agreement early under this Section. Security Deposit will be disposed per terms of Section 5 of this Agreement.

46. SUBORDINATION OF AGREEMENT; ATTORNMENT OF TENANT

This Agreement and Tenant's interest hereunder are and shall be subordinate, junior and inferior to any and all mortgages, deeds of trust, deeds to secure debt, and similar instruments (collectively, "Mortgage Documents"), now or hereafter placed on the Premises, all advances made under any Mortgage Documents (including, but not limited to, future advances), the interest payable on any Mortgage Documents and any and all renewals, extensions or modifications of any Mortgage Documents. Tenant also hereby agrees to attorn, without any deductions or set-offs whatsoever, to any holder of any Mortgage Documents and any other purchaser at a sale of the Premises by foreclosure or power of sale, or any deed in lieu of any of the foregoing, and recognize such holder or other purchaser, as the case may be, as the Landlord under the Agreement. If requested by Landlord, Tenant agrees to execute and deliver any document requested by Landlord in order to further evidence the subordination and attornment described in this Section.

47. ASSIGNMENT BY LANDLORD

Landlord shall have the right to, either voluntarily, involuntarily, by operation of law or otherwise, sell, assign, transfer or hypothecate the Agreement.

48. SUCCESSORS AND ASSIGNS

All of the covenants, conditions and provisions of the Agreement shall inure to the benefit of Landlord and its respective heirs, personal representatives, successors and assigns.

49. LANDLORD LIABILITY

49.1. Landlord shall not be liable or responsible in any way for injury to any person, or for loss of, or damage to, any article belonging to Tenant located in said premises, or other premises under control of Landlord. No right of storage is given by this Agreement. Landlord shall not be liable for non-delivery or mis-delivery of messages nor shall Landlord be liable for and this Agreement shall not be terminated by reason of any interruption of, or interference with, services or accommodation due Tenant. Caused by strike, riot, orders of public authorities, acts of other tenants, accident, the make of necessary repairs to the building of which said premises are a part, or any other cause beyond Landlord's control.

49.2. Landlord's liability under this Agreement will be limited to Landlord's unencumbered interest in the Premises. Neither Landlord nor any of its partners, members, officers, directors, agents, employees, shareholders, successors, assigns or pledges, including without limitation, the individual signing this Agreement on Landlord's behalf, will in any way be personally liable under this Agreement.

50. SATELLITE DISHES

Tenant may install one satellite dish on the Premises, provided it does not exceed one (1) meter (3.3 feet) in diameter. Tenant's installation must comply with reasonable safety standards and may not interfere with any cable, telephone or electrical systems within or serving the Premises. Installation must be done by a qualified person or company and the satellite dish cannot be installed or affixed to the roof of the Premises. Tenant will have the sole responsibility for maintaining any satellite dish or antenna and all related equipment. Tenant must pay for any damages and for the cost of repairs or repainting which may be reasonably necessary to restore the Premises to its condition prior to the installation of any satellite dish or related equipment. Tenant agrees to hold Landlord harmless, defend and indemnify Landlord against any claims or injuries related to Tenant's installation of a satellite dish. If Tenant installs a satellite dish or antenna prior to satisfying the conditions set forth above, then Tenant shall be deemed in default under the Agreement.

51. NO ENCUMBRANCES PERMITTED

Tenant has no authority or power to cause or permit any lien or encumbrance of any kind whatsoever, whether created by act of Tenant, operation of law or otherwise, to attach to or be placed upon the Premises. Landlord will have the right at all times to post and keep posted on the Premises any notice which it deems necessary for protection from such liens. Tenant covenants and agrees not to suffer or permit any lien of mechanics or materialmen or others to be placed against the Premises with respect to work or services claimed to have been performed for or materials claimed to have been furnished to Tenant or the Premises, and, in case of any such lien attaching or notice of any lien, Tenant covenants and agrees to cause it to be immediately released and removed of record. Notwithstanding anything to the contrary set forth in this Agreement, if any such lien is not released and removed on or before the date notice of such lien is delivered by Landlord to Tenant, Tenant will be deemed in default hereunder and Landlord, at its sole option, may immediately take all action necessary to release and remove such lien, without any duty to investigate the validity thereof, and all sums, costs and expenses, including reasonable attorneys' fees and costs, incurred by Landlord in connection with such lien will be deemed Rent under this Agreement and will immediately be due and payable by Tenant.

52. INDEPENDENT AGENT AND COUNSEL

Tenant agrees and acknowledges that the listing agent and leasing agent exclusively represent Landlord. Tenant is advised to consult its own real estate agent and/or counsel in connection with this Agreement.

53.1. Complaint Procedure Addendum

Complaint Procedure. Tenant hereby acknowledges and agrees that if Tenant shall have any complaint (“Complaint”) related to, arising out of or connected with the condition of the apartment unit (“Unit Condition Matter”, individually, and “Unit Condition Matters” in the aggregate), or anything else under the Lease, Tenant shall follow the procedure outlined herein prior to filing a lawsuit or any other proceeding against Landlord. Unit Condition Matters shall include, without limitation, claims related to the habitability of the unit, defects in the unit, maintenance and repair related matters, bugs, roaches and similar creatures, etc.

Procedure:

1. Tenant shall notify Landlord in writing of such Complaint describing in detail the Unit Condition Matter, and shall provide Landlord a reasonable opportunity to cure the Unit Condition Matter;
2. If Tenant is not satisfied with the Landlord’s response or cure to the Unit Condition Matter, then Tenant shall notify Landlord in writing of such dissatisfaction, and shall provide Landlord a further reasonable opportunity to cure the Unit Condition Matter;

3. If Tenant remains dissatisfied with Landlord's cure of the Unit Condition Matter, Tenant shall notify Landlord in writing, whereupon Landlord shall engage a third party inspector ("Inspector") to inspect the Unit Condition Matter and evaluate the remedy Landlord has implemented, and determine if further action is required by Landlord. If the Inspector determines that Tenant is the cause of the Unit Condition Matter or that Landlord has adequately remedied the Unit Condition Matter, then Tenant shall reimburse Landlord for the cost of the Inspector. If the Inspector determines that further action is required by Landlord, then Landlord shall pay the Inspector's cost and shall undertake the additional action recommended by the Inspector; and
4. Tenant shall fully cooperate with Landlord, its vendors and the Inspector, which shall include allowing Landlord and its vendors' reasonable access to the apartment unit to inspect, take pictures, devise a solution to the Unit Condition Matter and implement a solution thereto, as well as access to follow up and check on the effectiveness of any solution undertaken.

If Tenant files a lawsuit or other action against Landlord without following the Complaint Procedure outlined above, Landlord's liability to Tenant for all Unit Condition Matters shall not exceed \$1,000 in the aggregate.

Liability Cap. Notwithstanding anything else that may be construed to the contrary herein, Landlord's liability under the Lease for all Unit Condition Matters shall be capped at an amount equal to four (4) times the monthly rental rate payable by the Tenant each month up to a maximum aggregate amount of \$10,000. Tenant acknowledges that Landlord has set the monthly rental rate for the apartment unit based on the liability cap in the immediately preceding sentence, and that Landlord is relying on such liability cap in entering into this [Lease/Addendum]. For the avoidance of doubt, each party shall bear its own attorney's fees related in any action or other proceeding related to, arising out of or connected with Unit Condition Matters.

Written Notices: All written notices to Landlord must be given to both the onsite manager of the apartment building with a copy being sent to the corporate headquarters of the management company at the following address:

Attn: _____. If there is no onsite manager, such written notice must instead be given to the local office of _____ where tenant pays its rent, as well as to the corporate office.

You must provide proof of such cleaning and treatment to our satisfaction.

Bed Bug Information

Bed bugs, with a typical lifespan of 6-12 months, are wingless, flat, broadly oval-shaped insects. Capable of reaching the size of an apple seed at full growth, bed bugs are distinguishable by their reddish-brown color, although after feeding on the blood of humans and warm-blooded animals -- their sole food source -- the bugs assume a distinctly blood-red hue until digestion is complete.

Bed Bugs Don't Discriminate

Bed bugs increased presence across the United States in recent decades can be attributed largely to a surge in international travel and trade. It's no surprise then that bed bugs have been found time and time again to have taken up residence in some of the fanciest hotels and apartment buildings in some of the nation's most expensive neighborhoods.

Nonetheless, false claims that associate bed bugs presence with poor hygiene and uncleanness have caused rental housing tenants, out of shame, to avoid notifying owners of their presence. This serves only to enable the spread of bed bugs. While bed bugs are, by their very nature, more attracted to clutter, they're certainly not discouraged by cleanliness. Bottom Line: bed bugs know no social and economic bounds; claims to the contrary are false.

Bed Bugs Don't Transmit Disease

There exists no scientific evidence that bed bugs carry disease. In fact, federal agencies tasked with addressing pest of public health concern, namely the U.S. Environmental Protection Agency and the Centers for Disease Control and Prevention, have refused to elevate bed bugs to the threat level posed by disease carrying pests. Again, claims associating bed bugs with disease are false.

Identifying Bed Bugs

Bed bugs can often be found in, around and between:

- Bedding
- Bed Frames
- Mattress Seams
- Upholstered Furniture
- Around, behind and under wood furniture, especially along areas where drawers slide.
- Ceiling and wall junctions
- Crown moldings
- Behind and around wall hangings and loose wallpaper
- Between carpeting and walls (carpet can be pulled away from the wall and tack strip)
- Cracks and crevices in walls and floors
- Inside electronic devices, such as smoke and carbon monoxide detectors.
- Because bed bugs leave some persons with itchy welts strikingly similar to those caused by fleas and mosquitoes, the origination of such markings often go misdiagnosed. However, welts caused by bed bugs often times appear in succession and on exposed areas of skin, such as the face, neck and arms. In some cases, an individual may not experience any visible reaction from direct contact with bed bugs.
- While bed bugs typically prefer to act at night, they often do not succeed in returning to their hiding spots without leaving traces of their presence through fecal markings of a red to dark brown color, visible on or near beds. Blood stains tend also to appear when the bugs have been squashed, usually by an unsuspecting host in their sleep. And, because they shed, it's not uncommon for skin casts to be left behind in areas frequented by bed bugs.

Bed Bug Information

Preventing Bed Bug Encounters When Traveling

Humans serve as bed bugs' main mode of transportation, it is extremely important to be mindful of bed bugs when away from home. Experts agree that the spread of bed bugs across all regions of the United States is largely attributed to an increase in international travel and trade. Travelers are therefore encouraged to take a few minutes upon arriving to their temporary destination to thoroughly inspect their accommodations, so as to ensure that any uninvited guests are detected before the decision is made to unpack. Bed bugs can easily travel from one room to another, it is also recommended that travelers thoroughly inspect their luggage and belongings for bed bugs before departing for home.

Bed Bug Do's & Don'ts

- a. Do not bring used furniture from unknown sources into your dwelling. Countless bed bug infestations have stemmed directly from the introduction into a Tenant's unit of second-hand and abandoned furniture. Unless the determination can be made with absolute certainty that a piece of second-hand furniture is bed bug-free, Tenants should assume that the reason a seemingly nice looking leather couch, for example, is sitting curbside, waiting to be hauled off to the landfill, may very well be due to the fact that it's teeming with bed bugs.
- b. Do address bed bug sightings immediately. Tenants who suspect the presence of bed bugs in their property must immediately notify the Landlord. Do not attempt to treat bed bug infestations. Under no circumstances should you attempt to eradicate bed bugs. Health hazards associated with the misapplication of traditional and nontraditional, chemical based insecticides and pesticides poses too

great a risk to you and your neighbors.

- c. Do comply with eradication protocol. If the determination is made that your property is indeed playing host to bed bugs, you must comply with the bed bug eradication protocol set forth by both the Landlord and their designated pest management company.

53.3. Rental Mold and Ventilation Addendum

The following terms and conditions are hereby incorporated in and made a part of the Residential Lease or Month-to-Month Rental Agreement, on property located at: (Property Address, Property Number, Unit Number)

AND AGREEMENT: Except as may be noted at the time of Tenant's move in inspection, Tenant agrees that the Premises is being delivered free of known damp or wet building materials ("mold") or mildew contamination. (If checked, the Premises was previously treated for elevated levels of mold that were detected.) Tenant acknowledges and agrees that (i) mold can grow if the Premises is not properly maintained; (ii) moisture may accumulate inside the Premises if it is not regularly aired out, especially in coastal communities; (iii) if moisture is allowed to accumulate, it can lead to the growth of mold, and (iv) mold may grow even in a small amount of moisture. Tenant further acknowledges and agrees that Tenant has a responsibility to maintain the Premises in order to inhibit mold growth and that Tenant's agreement to do so is part of Tenant's material consideration in Landlord's agreement to rent the Premises to Tenant.

Accordingly, Tenant agrees to:

1. Maintain the Premises free of dirt, debris and moisture that can harbor mold;
2. Clean any mildew or mold that appears with an appropriate cleaner designed to kill mold;
3. Clean and dry any visible moisture on windows, walls and other surfaces, including personal property as quickly as possible;

Protect Your Family From Lead In Your Home

EPA United States Environmental Protection Agency

United States Consumer Product Safety Commission

United States Department of Housing and Urban Development

Are You Planning To Buy, Rent, or Renovate a Home Built Before 1978?

Many houses and apartments built before 1978 have paint that contains high levels of lead (called lead-based paint). Lead from paint, chips, and dust can pose serious health hazards if not taken care of properly.

OWNERS, BUYERS, and RENTERS are encouraged to check for lead (see page 6) before renting, buying or renovating pre-1978 housing.

Federal law requires that individuals receive certain information before renting, buying, or renovating pre-1978 housing:

LANDLORDS have to disclose known information on lead-based paint and lead-based paint hazards before leases take effect. Leases must include a disclosure about lead-based paint.

SELLERS have to disclose known information on lead-based paint and lead-based paint hazards before selling a house. Sales contracts must include a disclosure about lead-based paint. Buyers have up to 10 days to check for lead.

RENOVATORS disturbing more than 2 square feet of painted surfaces have to give you this pamphlet before starting work.

IMPORTANT!

Lead From Paint, Dust, and Soil Can Be Dangerous If Not Managed Properly

- FACT:** Lead exposure can harm young children and babies even before they are born.
- FACT:** Even children who seem healthy can have high levels of lead in their bodies.
- FACT:** People can get lead in their bodies by breathing or swallowing lead dust, or by eating soil or paint chips containing lead.
- FACT:** People have many options for reducing lead hazards. In most cases, lead-based paint that is in good condition is not a hazard.
- FACT:** Removing lead-based paint improperly can increase the danger to your family.

If you think your home might have lead hazards, read this pamphlet to learn some simple steps to protect your family.

Lead Gets in the Body in Many Ways

Childhood lead poisoning remains a major environmental health problem in the U.S.

People can get lead in their body if they:

- ◆ Breathe in lead dust (especially during renovations that disturb painted surfaces).
- ◆ Put their hands or other objects covered with lead dust in their mouths.
- ◆ Eat paint chips or soil that contains lead.

Lead is even more dangerous to children under the age of 6:

- ◆ At this age children's brains and nervous systems are more sensitive to the damaging effects of lead.
- ◆ Children's growing bodies absorb more lead.
- ◆ Babies and young children often put their hands and other objects in their mouths. These objects can have lead dust on them.

Lead is also dangerous to women of childbearing age:

- ◆ Women with a high lead level in their system prior to pregnancy would expose a fetus to lead through the placenta during fetal development.

Lead's Effects

It is important to know that even exposure to low levels of lead can severely harm children.

In children, lead can cause:

- ◆ Nervous system and kidney damage.
- ◆ Learning disabilities, attention deficit disorder, and decreased intelligence.
- ◆ Speech, language, and behavior problems.
- ◆ Poor muscle coordination.
- ◆ Decreased muscle and bone growth.
- ◆ Hearing damage.

While low-lead exposure is most common, exposure to high levels of lead can have devastating effects on children, including seizures, unconsciousness, and, in some cases, death.

Although children are especially susceptible to lead exposure, lead can be dangerous for adults too.

In adults, lead can cause:

- ◆ Increased chance of illness during pregnancy.
- ◆ Harm to a fetus, including brain damage or death.
- ◆ Fertility problems (in men and women).
- ◆ High blood pressure.
- ◆ Digestive problems.
- ◆ Nerve disorders.
- ◆ Memory and concentration problems.
- ◆ Muscle and joint pain.

Lead affects the body in many ways.

3

Where Lead-Based Paint Is Found

In general, the older your home, the more likely it has lead-based paint.

Many homes built before 1978 have lead-based paint. The federal government banned lead-based paint from housing in 1978. Some states stopped its use even earlier. Lead can be found:

- ◆ In homes in the city, country, or suburbs.
- ◆ In apartments, single-family homes, and both private and public housing.
- ◆ Inside and outside of the house.
- ◆ In soil around a home. (Soil can pick up lead from exterior paint or other sources such as past use of leaded gas in cars.)

Checking Your Family for Lead

Get your children and home tested if you think your home has high levels of lead.

To reduce your child's exposure to lead, get your child checked, have your home tested (especially if your home has paint in poor condition and was built before 1978), and fix any hazards you may have. Children's blood lead levels tend to increase rapidly from 6 to 12 months of age, and tend to peak at 18 to 24 months of age.

Consult your doctor for advice on testing your children. A simple blood test can detect high levels of lead. Blood tests are usually recommended for:

- ◆ Children at ages 1 and 2.
- ◆ Children or other family members who have been exposed to high levels of lead.
- ◆ Children who should be tested under your state or local health screening plan.

Your doctor can explain what the test results mean and if more testing will be needed.

4

Identifying Lead Hazards

Lead-based paint is usually not a hazard if it is in good condition, and it is not on an impact or friction surface, like a window. It is defined by the federal government as paint with lead levels greater than or equal to 1.0 milligram per square centimeter, or more than 0.5% by weight.

Deteriorating lead-based paint (peeling, chipping, chalking, cracking or damaged) is a hazard and needs immediate attention. It may also be a hazard when found on surfaces that children can chew or that get a lot of wear-and-tear, such as:

- ◆ Windows and window sills.
- ◆ Doors and door frames.
- ◆ Stairs, railings, banisters, and porches.

Lead dust can form when lead-based paint is scraped, sanded, or heated. Dust also forms when painted surfaces bump or rub together. Lead chips and dust can get on surfaces and objects that people touch. Settled lead dust can re-enter the air when people vacuum, sweep, or walk through it. The following two federal standards have been set for lead hazards in dust:

- ◆ 40 micrograms per square foot ($\mu\text{g}/\text{ft}^2$) and higher for floors, including carpeted floors.
- ◆ 250 $\mu\text{g}/\text{ft}^2$ and higher for interior window sills.

Lead in soil can be a hazard when children play in bare soil or when people bring soil into the house on their shoes. The following two federal standards have been set for lead hazards in residential soil:

- ◆ 400 parts per million (ppm) and higher in play areas of bare soil.
- ◆ 1,200 ppm (average) and higher in bare soil in the remainder of the yard.

The only way to find out if paint, dust and soil lead hazards exist is to test for them. The next page describes the most common methods used.

5

Lead from paint chips, which you can see, and lead dust, which you can't always see, can both be serious hazards.

Just knowing that a home has lead-based paint may not tell you if there is a hazard.

Checking Your Home for Lead

You can get your home tested for lead in several different ways:

- ◆ A **paint inspection** tells you whether your home has lead-based paint and where it is located. It won't tell you whether or not your home currently has lead hazards.
- ◆ A **risk assessment** tells you if your home currently has any lead hazards from lead in paint, dust, or soil. It also tells you what actions to take to address any hazards.
- ◆ A **combination risk assessment and inspection** tells you if your home has any lead hazards and if your home has any lead-based paint, and where the lead-based paint is located.

Hire a trained and certified testing professional who will use a range of reliable methods when testing your home.

- ◆ Visual inspection of paint condition and location.
- ◆ A portable x-ray fluorescence (XRF) machine.
- ◆ Lab tests of paint, dust, and soil samples.

There are state and federal programs in place to ensure that testing is done safely, reliably, and effectively. Contact your state or local agency (see bottom of page 11) for more information, or call **1-800-424-LEAD (5323)** for a list of contacts in your area.

Home test kits for lead are available, but may not always be accurate. Consumers should not rely on these kits before doing renovations or to assure safety.

6

What You Can Do Now To Protect Your Family

If you suspect that your house has lead hazards, you can take some immediate steps to reduce your family's risk:

- ◆ If you rent, notify your landlord of peeling or chipping paint.
- ◆ Clean up paint chips immediately.
- ◆ Clean floors, window frames, window sills, and other surfaces weekly. Use a mop or sponge with warm water and a general all-purpose cleaner or a cleaner made specifically for lead. REMEMBER: NEVER MIX AMMONIA AND BLEACH PRODUCTS TOGETHER SINCE THEY CAN FORM A DANGEROUS GAS.
- ◆ Thoroughly rinse sponges and mop heads after cleaning dirty or dusty areas.
- ◆ Wash children's hands often, especially before they eat and before nap time and bed time.
- ◆ Keep play areas clean. Wash bottles, pacifiers, toys, and stuffed animals regularly.
- ◆ Keep children from chewing window sills or other painted surfaces.
- ◆ Clean or remove shoes before entering your home to avoid tracking in lead from soil.
- ◆ Make sure children eat nutritious, low-fat meals high in iron and calcium, such as spinach and dairy products. Children with good diets absorb less lead.

7

Reducing Lead Hazards In The Home

Removing lead improperly can increase the hazard to your family by spreading even more lead dust around the house.

Always use a professional who is trained to remove lead hazards safely.

8

In addition to day-to-day cleaning and good nutrition:

- ◆ You can **temporarily** reduce lead hazards by taking actions such as repairing damaged painted surfaces and planting grass to cover soil with high lead levels. These actions (called "interim controls") are not permanent solutions and will need ongoing attention.
- ◆ To **permanently** remove lead hazards, you should hire a certified lead "abatement" contractor. Abatement (or permanent hazard elimination) methods include removing, sealing, or enclosing lead-based paint with special materials. Just painting over the hazard with regular paint is not permanent removal.

Always hire a person with special training for correcting lead problems—someone who knows how to do this work safely and has the proper equipment to clean up thoroughly. Certified contractors will employ qualified workers and follow strict safety rules as set by their state or by the federal government.

Once the work is completed, dust cleanup activities must be repeated until testing indicates that lead dust levels are below the following:

- ◆ 40 micrograms per square foot ($\mu\text{g}/\text{ft}^2$) for floors, including carpeted floors;
- ◆ 250 $\mu\text{g}/\text{ft}^2$ for interior windows sills; and
- ◆ 400 $\mu\text{g}/\text{ft}^2$ for window troughs.

Call your state or local agency (see bottom of page 11) for help in locating certified professionals in your area and to see if financial assistance is available.

Remodeling or Renovating a Home With Lead-Based Paint

Take precautions before your contractor or you begin remodeling or renovating anything that disturbs painted surfaces (such as scraping off paint or tearing out walls):

- ◆ Have the area tested for lead-based paint.
- ◆ Do not use a belt-sander, propane torch, high temperature heat gun, dry scraper, or dry sandpaper to remove lead-based paint. These actions create large amounts of lead dust and fumes. Lead dust can remain in your home long after the work is done.
- ◆ Temporarily move your family (especially children and pregnant women) out of the apartment or house until the work is done and the area is properly cleaned. If you can't move your family, at least completely seal off the work area.
- ◆ Follow other safety measures to reduce lead hazards. You can find out about other safety measures by calling 1-800-424-LEAD. Ask for the brochure "Reducing Lead Hazards When Remodeling Your Home." This brochure explains what to do before, during, and after renovations.

If you have already completed renovations or remodeling that could have released lead-based paint or dust, get your young children tested and follow the steps outlined on page 7 of this brochure.

If not conducted properly, certain types of renovations can release lead from paint and dust into the air.

9

Other Sources of Lead

While paint, dust, and soil are the most common sources of lead, other lead sources also exist.

10

- ◆ **Drinking water.** Your home might have plumbing with lead or lead solder. Call your local health department or water supplier to find out about testing your water. You cannot see, smell, or taste lead, and boiling your water will not get rid of lead. If you think your plumbing might have lead in it:

- Use only cold water for drinking and cooking.
- Run water for 15 to 30 seconds before drinking it, especially if you have not used your water for a few hours.

- ◆ **The job.** If you work with lead, you could bring it home on your hands or clothes. Shower and change clothes before coming home. Launder your work clothes separately from the rest of your family's clothes.
- ◆ Old painted **toys and furniture.**
- ◆ Food and liquids stored in **lead crystal or lead-glazed pottery or porcelain.**
- ◆ **Lead smelters** or other industries that release lead into the air.
- ◆ **Hobbies** that use lead, such as making pottery or stained glass, or refinishing furniture.
- ◆ **Folk remedies** that contain lead, such as "greta" and "azarcon" used to treat an upset stomach.

Simple Steps To Protect Your Family From Lead Hazards

If you think your home has high levels of lead:

- ◆ Get your young children tested for lead, even if they seem healthy.
- ◆ Wash children's hands, bottles, pacifiers, and toys often.
- ◆ Make sure children eat healthy, low-fat foods.
- ◆ Get your home checked for lead hazards.
- ◆ Regularly clean floors, window sills, and other surfaces.
- ◆ Wipe soil off shoes before entering house.
- ◆ Talk to your landlord about fixing surfaces with peeling or chipping paint.
- ◆ Take precautions to avoid exposure to lead dust when remodeling or renovating (call 1-800-424-LEAD for guidelines).
- ◆ Don't use a belt-sander, propane torch, high temperature heat gun, scraper, or sandpaper on painted surfaces that may contain lead.
- ◆ Don't try to remove lead-based paint yourself.

53.7. Cleaning & Maintenance Guidelines

Dear Tenant,

It is our goal to provide a well maintained property at the beginning of the lease term and to work with you to maintain the property in good condition at all times during the Agreement. At the time you take possession of the property, it should be in a clean, well-maintained condition with all appliances and mechanical systems functioning correctly. Any pre-existing conditions and/or damages should be noted clearly on your walk through inspection sheet. If any conditions or damages are found that were not readily visible during the initial inspection they should be reported immediately.

The enclosed information outlines the PAMA Management policy regarding Tenant cleaning & maintenance responsibilities during the Agreement and, if

followed, will help you receive a maximum security deposit refund at move out. This guide is intended as an outline of maintenance responsibility only and cannot address every possible cleaning or maintenance issue.

Smoke Detectors/ Carbon Monoxide Detectors

- Keep smoke/carbon monoxide detectors free from any dust or obstructions and change detector batteries every 6 months. We recommend changing batteries when daylight savings time occurs.
- Do not remove or disconnect smoke detectors.
- Report any non-functioning smoke detectors immediately.

Plumbing

- Clogged plumbing due to day-to-day waste removal is a Tenant responsibility unless it occurs within the first 30 days of the Agreement and is not a result of the current Tenant's use or abuse or it is determined that the clog is due to pre-existing conditions.
- Toilet flush handles, flappers and chains are a Tenant maintenance responsibility unless they fail within the first 30 days of the Agreement.
- Be careful to ensure that toys or hard objects are not flushed in the toilet as they can become lodged inside the toilet. In some cases the toilet may need to be replaced and the cost to repair or replace the toilet is a Tenant responsibility.
- Leaky faucets and/or plumbing pipes should be reported immediately. They are considered normal wear and tear and are a landlord responsibility to maintain unless it is observed that they are caused by Tenant misuse. In the event that a plumbing leak goes unreported and causes excessive damage to the property, the Tenant will be held liable for the additional damage.

Appliances - Range & Vent Hood

- Stove Burner drip pans are a Tenant responsibility to maintain. The drip pans should be new or in excellent condition at the beginning of your Agreement and should be in the same condition at the end of your Agreement. If drip pans are in poor condition at move out we will deduct from your security deposit.
- Coil stove burners are relatively inexpensive and simple to replace. They eventually fail due to day-to-day use, and similar to light bulbs, are a Tenant responsibility to replace unless they fail within the first 30 days of the Agreement.
- Flat surface stoves should be cleaned with only approved cleaning agents. Tenant will be held liable for any damage to the stove surface caused by abrasive cleaners and/or abuse.
- Range should be pulled away from wall and cleaned behind every 6 months. Take this opportunity to clean any food or grease that may have accumulated on the sides of the range, wall and cabinets.
- Oven should be cleaned at minimum every 6 months.
- The Grease Filter, located in the vent hood or built in microwave, is a Tenant responsibility to maintain. The Grease Filter should be in good clean condition at the beginning of the lease. It can be removed and hand washed in warm soapy water or it can be placed in the dishwasher on a regular basis as needed to maintain it. If you're cooking habits involve excess oil or grease we highly recommend washing the filter on a monthly basis to minimize the possibility of a grease fire.

Appliances – Refrigerator

- Refrigerator coils are located either behind or under the refrigerator. Tenants should clean behind and under the refrigerator as part of their regular home cleaning schedule. Dirty refrigerator coils will cause your refrigerator to work harder to stay cool and thus increase your electric bill.

Appliances – Dishwasher

- Report any water coming from under the dishwasher or around the door immediately.
- Whenever you empty the dishwasher, look for paper, glass or debris that may collect at the bottom near the filter. Remove any debris immediately as it can cause damage to the internal components of the pump and drain system.

Appliances - Garbage Disposal

- Garbage disposal is used to grind and dispose of soft foods only. Do not allow utensils, hard foods or non- organic debris to enter the garbage disposal. (Eggshells, coffee grounds or rice should NEVER go into the garbage disposal)
- If the disposal makes a humming noise, but does not function, there is debris lodged inside. Turn off electrical breaker, remove debris if possible, turn on breaker and test disposal.
- If disposal neither functions nor makes a humming noise, check breaker in breaker box and check reset button at bottom of disposal
- Report any leaks coming from garbage disposal immediately.

Heating Ventilation and Air Conditioning

- Living without a correctly functioning heater or air conditioner for more than a few hours can be uncomfortable to say the least. We cannot resolve failing A/C systems unless we know about them. Report any unusual noises or smells coming from the air conditioner and any moisture in/around the A/C closet immediately.
- It is imperative that Air Conditioning filters be changed on a regular basis. We recommend that the filter(s) be changed monthly. Tenant will be held liable for any damages that are a result of the air filter(s) not being maintained during the tenancy. Filter(s) may be located inside the Air Handler or inside the return air vent. If you are unsure of your Air Conditioning filter's size or location, inquire with your property Landlord.
- Whenever the lawn is cut, dirt, dust and grass clippings are thrown into the air and can be sucked into the outside air-condensing unit if it is running. This will clog the unit and reduce its efficiency overtime. It is recommended that the air conditioner be off whenever the grass is being cut or trimmed nearby the outside air-condensing unit.
- Beware of wires and pipes behind or around outside air condensing unit. Be careful not to damage the A/C control wires whenever trimming grass nearby the unit and make sure the water condensation pipe stays above the ground level and keep it free of dirt and debris.

Carpets

- Please remember that normal wear and tear is expected in your property, this includes carpeted areas. Excessive wear and tear will happen if carpets are not cleaned properly on a regular basis. We recommend the following as a guide to caring for your carpets. You can reduce soil build up in carpeting by removing shoes when entering the home and by avoiding walking on carpet in bare feet as body oils will be transferred to the carpet, which makes it harder to remove soil by way of vacuuming.
- Vacuum carpets on a weekly basis paying special attention to "high traffic" areas as ground in sand and dirt will damage carpet fibers. We recommend that inexpensive throw rugs be used in "high traffic" areas to reduce excessive damage to carpets.
- Clean up spills as fast as you can. Blot or scrape up as much of the spill as possible, blotting with a clean dry towel from the outside toward the center. If you use a stain remover, test it first on an inconspicuous area of the carpet to make sure it does not damage the carpet.
- There are many tricks to removing set in stains, gum, candle wax etc. If you have any questions consult a professional or contact our office for suggestions.
- It is recommended that carpets be professionally cleaned as needed or at least once per year. If you rent or use your own carpet cleaner, make sure to follow the manufacturer's instructions so that damage to carpets does not occur. Using excess soap or water can damage carpets and the underlying padding.

Flooring

- All flooring should be cleaned on a regular basis to ensure the property is kept in clean and sanitary condition according to the Agreement.
- Ceramic and vinyl flooring should be swept and mopped on a weekly basis paying special attention to high traffic areas, edges and corners where a mop doesn't easily clean.
- Wood and laminate flooring should be cleaned on a weekly basis. Do not use excessive water on wood or laminate floors as this can damage the flooring. If mopping, use only a slightly damp mop.
- Clean and dry any spills immediately.

Walls, Blinds & Fixtures

- Dust blinds no less than once a month, wiping any stains as needed. In areas where grease build up may be a concern (such as kitchen areas) wipe blinds with a suitable cleaner.
- Wipe any handprints or stains on walls, doors and switch plates as needed or at minimum every 3 months.
- Dust or vacuum baseboards, door trim, light fixtures and ceiling fan blades as needed or at minimum every 3 months.
- Remove light fixture glass covers and wash with warm soapy water or in dishwasher as needed or at minimum once per year.

Emergency maintenance items involving plumbing leaks where moisture is found in carpets walls or under sinks; function of the heating system, and hot water heater should be reported immediately to our office by phone.

Non-emergency maintenance items should be reported to our office in writing via email, postal service, or hand carried.

Please help us ensure that the property you reside in stays well maintained for your and the Landlord's benefit for years to come by following the above procedures
